

## KINGDOM PROFESSIONALS

Globalization has created countless opportunities around the world for people to work. For Christ-followers, the opportunity to work abroad offers more than career advancement and international experience benefits. They are strategic and holistic avenues for the Gospel to go forth in the world.

Kingdom Professionals are believers who find employment abroad for the sake of the Great Commission. Desiring that people of all nations will have opportunity to know Christ, they reflect the Gospel by contributing to the wellbeing of society and loving their colleagues through the course of everyday life and work.

However, just because Kingdom Professionals go with their own jobs, that doesn't mean they don't also need the support of the Church. We believe the most healthy and effective Kingdom Professionals are those supported by people who understand their needs and given resources that fit their context. TEAM can come alongside you in your journey, whether you are simply considering an opportunity overseas, preparing to embark on your new job abroad or already living abroad.

## QUICK FACTS:

Over 50 million people work outside their home country. Additionally, 59 percent of young workers are interested in pursuing a career that takes them overseas. ([Source 1](#), [Source 2](#))

The top felt needs expressed by Christians working abroad are a desire for a like-minded community, a mentor to walk with and resources to help with navigating transition and change.\*

\*based on internal survey

Christians working abroad daily interact with local and foreign workers and have the opportunity to model Christ in a relatable way that integrates their faith and work.

***Thousands of Christians are already taking their careers abroad. Many more are seeking a different way to engage in missions. The question is not whether people will go but rather how awakened, connected and equipped people will be as they go. TEAM wants to support and empower believers to not simply be Christian expats but to be Kingdom Professionals who live out their faith with intentionality for the sake of the Gospel.***

### **Who is an ideal candidate for the Kingdom Professionals program?**

Our Kingdom Professionals program is well suited for those who require minimal funding, need flexibility in terms of support and resources and have variable timelines for departure. We offer services that take these unique needs into account, such as:

- Pre-departure resources and re-entry support
- Ongoing mentorship and coaching
- Connection to other Kingdom Professionals around the globe

Additionally, we can connect you as an affiliate of TEAM to our local missionary teams near your employment location for fellowship and collaboration.

Find out how you can serve as a Kingdom Professional across the globe!
