

# MEDICINE AND HEALTHCARE MINISTRIES

TEAM believes in a holistic approach to missions. That is, we seek to serve people's physical needs as well as their spiritual needs.

People are much quicker to listen to the Good News when they see us caring for others — and when they experience our care for them. Medical missionaries make it possible for patients to encounter God's love in action. And continual care provides the perfect chance to develop relationships and talk deeply about spiritual things.

## FROM THE FIELD

"As I began to think about what God would have for me and how I could make an impact in a Gospel-resistant country, I was drawn to the fact that when you operate on someone, there's a special bond that develops. You make a commitment to that person, and that person has committed their life to your hands."

—Luke Cutherell, TEAM medical missionary in Pakistan

## WHERE ON THE MISSION FIELD CAN I SERVE AS A MEDICAL PROFESSIONAL?

Whether you are trained as a dentist, surgeon or nurse, there is a place for you among the nations. TEAM has sent medical missionaries to Southeast Asia, the Middle East, Africa and everywhere in between. We'd love to talk to you about the opportunities that might fit your skills and gifts!

## WHAT TYPE OF HEALTHCARE FACILITIES DOES TEAM SERVE IN?

TEAM missionaries serve in a wide variety of medical settings. We've established entire hospitals in Central Asia, created mobile clinics in the jungles of Latin America and orchestrated home-based care in the rural villages of South Asia.

Whether you like the rush of a busy hospital or prefer something more slow-paced, we likely have an opening for you.

## WILL I BE ABLE TO USE MY SPECIALTY ON THE MISSION FIELD?

No matter what type of medical field you're trained in, it's a field that's needed around the world! In fact, it's likely that your specialty will be more appreciated in a needy community, where even basic care is hard to obtain. Some people travel for days to receive our missionary-doctors' care — because the quality of treatment they receive is unlike anything they could get elsewhere. As a medical missionary, you will get to provide care that radically changes your patients' lives. And you'll get to do it all while sharing Christ!

Whatever your training is, we'd love to talk with you about it and find the right service options for you.

Find out how you can serve through healthcare ministries across the globe!
